“

Couldn't be more **stoked** with these results, having only been supplementing **Digestive EQ** for a month. My 15yo gelding who has had a constant battle with his condition, ulcers, healthy stool and girthing is back to his 10yo self: **no girthing or scouring**, he is much more **willing to work** and his **condition is improving rapidly**. I have been trying for almost a year, having had him on ulcer prevention feed and going through a drought. We had gotten no where, but your supplement has **changed him completely**! Can't wait to see how much he further improves!
